

BLUE STAR

Blue Star in collaboration with CII Foundation, donated PPE kits, N-95 masks, oxygen concentrators, flow meters, vaporisers and ventilators to government hospitals and health care centres in the districts of Sindhudurg and Palghar, Maharashtra. The company also donated oxygen concentrators to improve the patient care and treatment services at Dr Y S Parmar Medical College, Kala Amb area in Himachal Pradesh.

Further, Blue Star, along with corporates houses like Toyota Industries, Commonwealth Bank of Australia, and Senapathy Whiteley donated mortuary chambers to the Bangalore Chamber of Industry and Commerce and the Government of Karnataka.

In addition, Blue Star donated water dispensers to ensure safe, clean drinking water to vaccine workers at six government hospitals in Mumbai. Besides, it continued to provide ration baskets to 324 patients and their families undergoing cancer treatment at Malabar Cancer Centre, Thalassery. This is to continue providing critical supportive care like nutrition during such difficult circumstances.

Through its flagship programme 'Blue Star Engineering & Electronics Diagnostic Programme,' the company continues to support free diagnostic services including CT Scan for the socio-economically challenged individuals. This is to help diagnose COVID-19 in individuals with a high clinical suspicion of infection.
