

# CII FOUNDATION

## CII & CIIF COVID RELIEF INTERVENTIONS – 2ND WAVE OF COVID-19 IN INDIA

### Southern Region

- CII Kerala with the help of its Member companies is setting up Centralized Oxygen Manifold System in Government Hospitals across Kerala. The system facilitates direct delivery of pressurized oxygen through wall-mounted outlets close to the patient's bed from the centralized system. The system will be implemented in 20 Government Hospitals identified by the District National Health Mission which are being converted as COVID care centres. The project will create around 970 beds with Oxygen outlets close to patient's bed. The total estimated cost of this project would be Rs.1.9 Crore. The funds are being mobilized through the CII Member companies. This included **CII Foundation** supported two hospitals (85 beds) with oxygen Manifold system and the works have commenced.
- In addition we are also in constant interactions with Local self-Governments and supporting in mobilizing Provisions for Community Kitchen that caters food to persons and families in isolation due to COVID-19 (1900 food packet daily both lunch and dinner) and majority of them are daily wage workers. Presently Rs.1 Lakh worth provisions including Rice, Atta, Dal, Bengal gram, green gram and Curry powders are distributed.
- CII Kerala has conducted work place vaccination in 3 companies reaching 463 beneficiaries. Member companies such as Peekay Steels has shifted their oxygen plant to the medical college to support the oxygen need
- CII has connected the Kerala Government to international and national level suppliers of medical necessities.
