

DALMIA BHARAT GROUP (DBG)

DBG has been providing medical instruments, safety gears and critical medical equipment to State Governments across multiple locations. It has initiated installation of oxygen generating plants at its manufacturing units to produce medical grade oxygen. The company is endeavoring to install seven oxygen generating plants of capacity ranging between 10-30 M³/hour across Rajgangpur (Odisha), Dalmiapuram (TN), Kadappa (AP), Belgaum (Karnataka), Lanka (Assam) and Murali (Maharashtra).

So far, it has donated over 2000 isolation kits to Bokaro District administration. It is also donating oxygen cylinders and oxygen concentrators to local authorities, and has distributed oximeters, digital thermometers, masks, hand sanitizers, gloves, packed meals to frontline workers. It has also distributed groceries to local people across all its locations. All the Occupational Health Centers (OHC) situated within its manufacturing units have been converted into isolation centers with multiple beds and oxygen cylinder facility.

The company has donated INR 1.5 Cr to CM Relief Fund, Govt. of Assam to support the vaccination drive. Besides, monetary donations to District Administrations, DBG has also donated infrastructure to Primary Health Centres and local hospitals. It is providing doctor consultation facilities to its employees and their families and is also facilitating hospital admission, ambulance service and doorstep delivery of medical instruments/medicines for employees. The company has tied up with Oyo Rooms to provide isolation center facility for affected employees/family and is also organizing vaccination drives.
