

## DEAKIN UNIVERSITY, AUSTRALIA

Deakin University has joined forces with its long-term partners, Tata Trusts, through their initiative 'One Against COVID-19' and is lending financial support. It is also encouraging its community and partners to do the same. The University's contribution will support non-governmental organisations and government hospitals by resourcing wards and Intensive Care Units (ICUs).

Funds will go to the areas that are most in need, specifically to aid with repairing/upgrading facilities; staff training, and expert project management to improve the efficacy and efficiency of the health response. These funds would be in addition to the existing Student Emergency Assistance Fund which supports Deakin students experiencing financial distress and would go directly to the individuals and public services in need in India.
