

## ENDRESS+HAUSER GROUP

During the second wave of the pandemic, Endress+Hauser Group companies provided eight ventilators to Government Hospital, Aurangabad, Maharashtra. Recently, the company handed over 40 Oxygen Concentrators to Loksewa Mandal, an NGO which works in rural areas to support people who need medical help in villages. The company has donated over 60 oxygen concentrators to Primary Health Centers in small villages in the Marathwada region of Maharashtra and other parts of India.

Endress+Hauser has associated itself with Annamrita Foundation, providing free hygienic meals to needy people, migrant workers and relatives of patients admitted in hospitals. The company has facilitated 20,000 meals over the past two months and around 35 employees of Endress+Hauser have participated in packing of the meals.

Endress+ Hauser has carried out vaccination drives for around 1,000+ associates including eligible employees and their family members, service providers like security, housekeeping, logistics, etc. and family members of service providers. The company is also undertaking initiatives to create awareness on vaccination in the society.
