Overcoming all hurdles and finding new solutions, Indian Railways is continuing its journey of bringing relief by delivering Liquid Medical Oxygen(LMO) to various states across the country. So far, Indian Railways has delivered more than 21939 MT of LMO in more than 1304 tankers to various states across the country.

It may be noted that 321 Oxygen Expresses have completed their journey so far and brought relief to various States.

Till the time of this release, 11 loaded Oxygen Expresses on run with more than 827 MT of LMO in 46 tankers.

in

Liquid Medical Oxygen(LMO) delivery to Karnataka, Tamil Nadu and Haryana crossed 2000 MT each.

For the state of Andhra Pradesh and Telangana the Liquid Medical Oxygen(LMO) delivery crossed 1800 MT and 1900 MT respectively.

It is worth mentioning that Oxygen Expresses started their deliveries 37 days back on 24th April in Maharashtra with a load of 126 MT.

It is Indian Railways endeavour to deliver as much LMO as possible in the shortest time possible to the requesting states.

Oxygen relief by Oxygen Expresses reached out to 15 states namely Uttarakhand, Karnataka, Maharashtra, Madhya Pradesh, Andhra Pradesh, Rajasthan, Tamil Nadu, Haryana, Telangana, Punjab, Kerala, Delhi, Uttar Pradesh, Jharkhand and Assam.

Till the time of this release, 614 MT of Oxygen has been offloaded in Maharashtra, nearly 3797 MT in Uttar Pradesh, 656 MT in Madhya Pradesh, 5527 MT in Delhi, 2034 MT in Haryana, 98 MT in Rajasthan, 2115 MT in Karnataka, 320 MT in Uttarakhand, 2016 MT in Tamil Nadu, 1896 MT in Andhra Pradesh, 225 MT in Punjab, 380 MT in Kerala, 1978 MT in Telangana, 38 MT in Jharkhand and 240 MT in Assam.

Till now Oxygen Expresses offloaded LMO in around 39 cities/towns in 15 states across the country namely Lucknow, Varanasi, Kanpur, Bareilly, Gorakhpur & Agra in Uttar Pradesh, Sagar, Jabalpur, Katni & Bhopal in Madhya Pradesh, Nagpur, Nashik, Pune, Mumbai & Solapur in Maharashtra, Hyderabad in Telangana, Faridabad & Gurugram in Haryana, Tuglakabad, Delhi Cantt & Okhla in Delhi, Kota & Kanakpara in Rajasthan, Bengaluru in Karnataka, Dehradun in Uttarakhand, Nellore, Guntur, Tadipatri & Visakhapatnam in Andhra Pradesh, Ernakulam in Kerala, Tiruvallur, Chennai, Tuticorin, Coimbatore & Madurai in Tamil Nadu, Bhatinda & Phillaur in Punjab, Kamrup in Assam and Ranchi in Jharkhand.

Indian Railways has mapped different routes with Oxygen supply locations and keeps itself ready with any emerging need of the States. States provide tankers to the Indian Railways for bringing LMO.

Criss crossing the country, Indian Railways is picking up oxygen from places like Hapa , Baroda, Mundra in the West and Rourkela, Durgapur, Tatanagar, Angul in the East and then delivering it to States of Uttarakhand, Karnataka, Maharashtra, Madhya Pradesh, Andhra Pradesh, Rajasthan, Tamil Nadu,

Haryana, Telangana, Punjab, Kerala, Delhi, Uttar Pradesh & Assam in complex operational route planning scenarios.

In order to ensure that Oxygen relief reaches in the fastest time possible, Railways is creating new standards and unprecedented benchmarks in running of Oxygen Express Freight Trains. The average speed of these critical Freight trains is way above 55 in most cases over long distances. Running on high priority Green Corridor, with a highest sense of urgency, operational teams of various zones are working round the clock in most challenging circumstances to ensure that Oxygen reaches in fastest possible time frame. Technical stoppages have been reduced to 1 minute for crew changes over different sections.

Tracks are kept open and high alertness is maintained to ensure that Oxygen Express keeps zipping through.

All this is done in a manner that speed of other Freight Operation doesn't get reduced as well.

Running of new Oxygen is a very dynamic exercise and figures keep getting updated all the time. More loaded Oxygen Expresses are expected to start their journeys later in the night.
