

# Korean Trade-Investment Promotion Agency

Let's help India with KOTRA

## 1) Health Support Project

- Business name: KOTRA Global Emergency Medical Health Support Project
- Period: ~ End of Covid-19 Emergency
- Support detail:
  - 1) General medical supplies shipping cost (masks, diagnostic kits, etc.)
    - maximum of 5 million won (INR 330,000) per donation
  - 2) Medical devices and equipment shipping cost (oxygen generators, etc.)
    - maximum of 10 million won (INR 658,000) per donation

KOTRA (President Pyeong-oh Kwon) carried out 'CSR (Corporate Social Responsibility) and ESG (Environmental, Social, Governance) Emergency Medical and Health Support Project' to help India, our major trade and economic partner, respond to Covid-19.

It is a project that supports transportation costs when Korean companies donate medical and health products to Indian governments, institutions, and companies.

In detail,

- General medical supplies (masks, diagnostic kits, etc.) up to 5 million won
- Medical devices and equipment (oxygen generators, etc.) up to 10 million won
- Find beneficiaries of donation
- Support overall relief efforts, such as resolving difficulties in import customs clearance of donated goods

## 2) Donation Measures

- KOTRA is investigating Korean manufacturers of oxygen and protective clothing like covid-19 medical products and trying to contact them for Korean residents in India.
- Discover and link companies seeking medical supplies (Covid-19) donations to India

- Find exportable companies related to medical supplies (Covid-19) from Korea
- Currently, two Korean companies have donated 300 protective clothing delivered to the Korean Association

### **3) Govt. Support Measures**

- To fight the pandemic crisis in India, Korea sent aid items worth a couple of million dollars such as 230 oxygen concentrators, 200 oxygen cylinders and 100 negative pressure isolation stretchers in May.
- The 1st and 2nd consignments of medical items account for around 20 percent of the whole support plan the government of that country has announced. More supplies are expected in the coming days.
- Korean government provides information on covid-19 hospital rooms through the Embassy of the Republic of Korea in Delhi, Chennai and Mumbai.
- Emergency assistance to Korean residents with medical oxygen generators held by embassies and Korean companies in India
- In consultation with the Korean Association, the government is also pushing for emergency procurement of medical oxygen generators through diplomatic corridors in Korea
