

SANY INDIA

During the second wave, Sany donated ventilators to Sassoon Hospital in Maharashtra. The company also donated COVID relief materials such as oxygen concentrators, oxygen plants, and ventilators, etc. to different hospitals, business associations and its members.

Sany has donated 1 lakh N95 masks and 5 Lakh 3 Ply Masks through Maharashtra Industrial Development Corporation (MIDC) for the healthcare and administration professionals of the state. Besides this, the company also donated face masks and personal protective equipment (PPE) kits to various hospitals and people working at construction sites. Rations were also distributed to the people residing in the nearby villages.

Sany, in association with CII, held a special vaccination drive for its employees, financiers, suppliers, and business associations like ICEMA & Chakan Industries Association along with their family members in Pune. Over 1400 people were vaccinated at this camp and more such camps are being planned.

The company also launched a COVID Care helpline number for all its employees, customers, dealers, dealer employees and workers along with their family members. The company is taking measures to ensure a safe work environment for all its employees.
