

# TATA CONSUMER PRODUCTS & ITS SUBSIDIARIES AND AFFILIATES

Tata Consumer Products has created 369 beds for COVID treatment at various hospitals and 94 quarantine centres with capacity of 444 beds across Kerala, Assam, West Bengal and Karnataka. It has provided more than 85 oxygen concentrators, 41,000 surgical gloves, 5,500 PPE suits, 10,000 face shields, 4100 oximeters and 315 digital thermometers across the country.

The company is carrying out awareness programmes on wearing masks, sanitising hands and social distancing. So far over 100,000 employees and 350,000 people in communities in Kerala, Karnataka, Assam and West Bengal have benefited from these programs. Over 10,000 employees and third-party distributors have been provided sanitation kits comprising gloves, sanitizers, and masks to ensure safe market visits and travel to manufacturing sites.

The company also engaged with differently abled students and women helping them stitch over 100,000 masks that were supplied to the government hospitals, frontline workers, police and locals in the communities. The company is ensuring safe travel back home for migrant workers, and till now has supported over 5000 migrant workers.

The company's vaccination sites at its hospitals in Assam and Kerala are conducting vaccination drives for employees, their families and communities in the vicinity of its operations. Vaccination drives for employees and their families have been completed at Mumbai, Bangalore and Munnar. Similar drives are being planned in Kochi and Kolkata.
